The performance data quoted represents past performance. Current performance may be lower or higher than the data quoted above. Past performance is no guarantee of future results. Investment returns and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. The Advisor may absorb certain Fund expenses, without which total return would have been lower. Net Expense Ratio reflect the expense waiver, if any, contractually agreed to through September 1, 2025. A 2% redemption fee will be deducted on fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes.

- The MSCI ACWI ex USA Small Cap Index is designed to measure the equity market performance of small cap companies across developed and emerging markets globally, excluding the United States.
- Foreign small/mid-growth portfolios invest in international stocks that are smaller, growing faster, and higher-priced than other stocks. These portfolios primarily invest in stocks that fall in the bottom 30% of each economically integrated market (such as Europe or Asia ex-Japan). Growth is defined based on fast growth (high growth rates for earnings, sales, book value, and cash flow) and high valuations (high price ratios and low dividend yields). These portfolios typically will have less than 20% of assets invested in U.S. stocks.
- Holdings are released based on a 60-day lag from the most recent quarter end according to the Grandeur Peaks Holdings Release Policy. Portfolio holdings are subject to change at any time. References to specific securities should not be construed as recommendations by the Fund or its Advisor. Current and future holdings are subject to risk. Total amount subject to rounding.
