The Advisor may absorb certain Fund expenses, without which total return would have been lower. Net Expense Ratio reflect the expense waiver, if any, contractually agreed to through October 6, 2024. A 2% redemption fee will be deducted on fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes. Mutual fund investing involves risks and loss of principal is possible.

Investing in small and micro-cap funds will be more volatile, and loss of principal could be greater than investing in large cap or more diversified funds. Investing in foreign securities entails special risks, such as currency fluctuations and political uncertainties, which are described in more detail in the prospectus. Investments in emerging markets are subject to the same risks as other foreign securities and may be subject to greater risks than investments in foreign countries with more established economies and securities markets. Diversification does not eliminate the risk of experiencing investment loss.

1 The **MSCI ACWI Small Cap Index** is designed to measure the equity market performance of small-cap companies across developed and emerging markets globally. 2 The **MSCI ACWI IMI Index** is designed to measure the equity market performance of large, mid, and small-cap companies across developed and emerging markets globally. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. You cannot invest directly in any index. 3 **Estimated 3 Year EPS Growth**. Estimated weighted average annual increase in Earnings Per Share (EPS) of the fund's holdings over the next 3 years. These returns are not guaranteed. Actual EPS growth may be higher or lower. 4 **Trailing P/E**. The trailing 12-month Price/Earnings (P/E) of the portfolio, calculated as a weighted harmonic average. 5 **Return on Assets**. Weighted average Return on Assets (ROA) of the portfolio's holdings, calculated by dividing a company's annual returns by its total assets. 6 **Operating Margin**. A measurement of what proportion of a company's revenue is left over after paying for variable costs of production such as wages, raw materials, etc. It is calculated by dividing Operating Income by Net Sales. 7 **Debt/Equity**. A measure of a company's financial leverage. It is calculated by dividing its total liabilities by stockholders' equity. 8 **Weighted Average Market Cap**. The average market capitalization of companies held by the fund, weighted in proportion to their percentage of net assets in the fund. 9 **Median Market Cap**. The midpoint of market capitalization of companies held by the fund. 10 **Portfolio Turnover**. A measure of annual trading activity in the fund's portfolio, expressed as a percentage of the fund's average total assets.
