Data shows past performance, which is not indicative of future performance. Current performance may be lower or higher than the data quoted. For the most recent month-end performance data, visit grandeurpeakglobal.com. Investment returns and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. For performance information current to the most recent month-end, please call toll-free 1-855-377-PEAK (7235). The Advisor may absorb certain Fund expenses, without which total return would have been lower. Net Expense Ratio reflect the expense waiver, if any, contractually agreed to through September 1, 2025. A 2% redemption fee will be deducted on fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes.

Portfolio holdings are subject to change at any time. References to specific securities should not be construed as recommendations by the Fund or its Advisor. Current and future holdings are subject to risk. Holdings are released on a 60-day lag from the most recent quarter end per the Grandeur Peak Holdings Release Policy.

MARKET CAPITALIZATION

REGIONS

SECTORS

An investor should consider investment objectives, risks, charges, and expenses carefully before investing. To obtain a prospectus, containing this and other information, visit grandeurpeakglobal.com or call 1-855-377-PEAK (7325). Please read it carefully before investing.

The Advisor may absorb certain Fund expenses, without which total return would have been lower. Net Expense Ratio reflect the expense waiver, if any, contractually agreed to through September 1, 2025. A 2% redemption fee will be deducted on fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes. Mutual fund investing involves risks and loss of principal is possible.

Investing in small and micro-cap funds will be more volatile, and loss of principal could be greater than investing in large cap or more diversified funds. Investing in foreign securities entails special risks, such as currency fluctuations and political uncertainties, which are described in more detail in the prospectus. Investments in emerging markets are subject to the same risks as other foreign securities and may be subject to greater risks than investments in foreign countries with more established economies and securities markets. Diversification does not eliminate the risk of experiencing investment loss.

1 MSCI Emerging Markets SMID Cap Index. Designed to measure the equity market performance of small and mid-cap companies across emerging markets. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. You cannot invest directly in any index.

2 Morningstar Diversified Emerging Markets. Diversified emerging-markets portfolios tend to divide their assets among 20 or more nations, although they tend to focus on the emerging markets of Asia and Latin America rather than on those of the Middle East, Africa, or Europe. These portfolios invest predominantly in emerging market equities, but some funds also invest in both equities and fixed income investments from emerging markets.

3 Estimated Median 1Yr EPS Growth. Estimated median percentage increase in earnings per share (EPS) of the fund's holdings over the next year. EPS measures a company's profitability, indicating how much profit each outstanding share of common stock has earned. **4 Trailing P/E.** The trailing 12-month Price/Earnings (P/E) of the portfolio. P/E measures a company's share price relative to its EPS. Sum of the stock prices of the fund's holdings divided by the aggregate earnings per share of those holdings for the prior 12 months. **5 Return on Assets.** Weighted average Return on Assets (ROA) of the portfolio's holdings, calculated by dividing a company's annual returns by its total assets. **6 Operating Margin.** A measurement of what proportion of a company's revenue is left over after paying for variable costs of production such as wages, raw materials, etc. It is calculated by dividing Operating Income by Net Sales. **7 Debt/Equity.** A measure of a company's financial leverage. It is calculated by dividing its total liabilities by stockholders' equity. **8 Weighted Average Market Cap.** The average market capitalization of companies held by the fund, weighted in proportion to their percentage of net assets in the fund. **9 Median Market Cap.** The midpoint of market capitalization of companies held by the fund. **10 Portfolio Turnover.** A measure of annual trading activity in the fund's portfolio, expressed as a percentage of the fund's average total assets.

Micro-cap: less than \$500M. **Small-cap:** \$500M - \$2.5B. **Mid-cap:** \$2.5B - \$10B. **Large-cap:** larger than \$10B.
