SECTORS

An investor should consider investment objectives, risks, charges, and expenses carefully before investing. To obtain a prospectus, containing this and other information, visit grandeurpeakglobal.com or call 1-855-377-PEAK (7325). Please read it carefully before investing.

The Advisor may absorb certain Fund expenses, without which total return would have been lower. Net Expense Ratio reflect the expense waiver, if any, contractually agreed to through September 1, 2025. A 2% redemption fee will be deducted on fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes. Mutual fund investing involves risks and loss of principal is possible.

Investing in small and micro-cap funds will be more volatile, and loss of principal could be greater than investing in large cap or more diversified funds. Investing in foreign securities entails special risks, such as currency fluctuations and political uncertainties, which are described in more detail in the prospectus. Investments in emerging markets are subject to the same risks as other foreign securities and may be subject to greater risks than investments in foreign countries with more established economies and securities markets. Diversification does not eliminate the risk of experiencing investment loss.

1 **MSCI ACWI Small Cap Index** is designed to measure the equity market performance of small-cap companies across developed and emerging markets globally. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. You cannot invest directly in any index.

2 **Morningstar Global Small/Mid Stock:** World small/mid stock portfolios invest in a variety of international stocks that are smaller. World-stock portfolios have few geographical limitations. It is common for these portfolios to invest the majority of their assets in developed markets, with the remainder divided among the globe's smaller markets. These portfolios are not significantly overweight U.S. equity exposure relative to the Morningstar Global Market Index and maintain at least a 20% absolute U.S. exposure. 3 **Estimated 3 Year EPS Growth.** Estimated percentage increase in earnings per share (EPS) per year of the fund's holdings over the next 3 years. EPS measures a company's profitability, indicating how much profit each outstanding share of common stock has earned. These returns are not guaranteed. Actual EPS growth may be higher or lower. 4 **Trailing P/E.** The trailing 12-month Price/Earnings (P/E) of the portfolio. P/E measures a company's share price relative to its EPS. Sum of the stock prices of the fund's holdings divided by the aggregate earnings per share of those holdings for the prior 12 months. 5 **Return on Assets.** Weighted average Return on Assets (ROA) of the portfolio's holdings, calculated by dividing a company's annual returns by its total assets. 6 **Operating Margin.** A measurement of what proportion of a company's revenue is left over after paying for variable costs of production such as wages, raw materials, etc. It is calculated by dividing Operating Income by Net Sales. 7 **Debt/Equity.** A measure of a company's financial leverage. It is calculated by dividing its total liabilities by stockholders' equity. 8 **Weighted Average Market Cap.** The average market capitalization of companies held by the fund, weighted in proportion to their percentage of net assets in the fund. 9 **Median Market Cap.** The midpoint of market capitalization of companies held by the fund. 10 **Portfolio Turnover.** A measure of annual trading activity in the fund's portfolio, expressed as a percentage of the fund's average total assets.

Micro-cap: less than \$500M. **Small-cap:** \$500M - \$2.5B. **Mid-cap:** \$2.5B - \$10B. **Large-cap:** larger than \$10B.
